

**FOR IMMEDIATE RELEASE:**

## **Kaiser Consulting Receives 2016 Progressive Organization Award**

September 1, 2016 (Columbus, OH) – Kaiser Consulting was one of three organizations honored today as a Progressive Organization at the Smart Business, Smart Women Awards ceremony. The Progressive Organization award recognizes organizations that support or promote women-based initiatives, develop specific programs that provide opportunities for advancement or create family-friendly workplaces.

Kaiser Consulting recruits accountants and IT professionals who are re-entering the work force, as well as working professionals who desire less than a full-time schedule. Kaiser Consulting offers a competitive, professional wage and employee benefits package plus a flexible schedule.

Clients appreciate the business model because Kaiser Consulting resources have the experience to hit the ground running, allowing clients' employees the opportunity to focus on key operational activities and the central mission of the organization.

This visionary model has allowed Kaiser Consulting to grow organically and double in size since 2013 to over 50 employees.

Additional recipients in the Progressive Organization category included Cybervation and Motorists Insurance Group.
