

Carrie Gresham

Consultant

ABOUT CARRIE

Carrie is a solutions-driven professional with over a decade of information technology experience serving companies in numerous industries with a specific focus in the manufacturing and financial services industries. She has a proven record of successfully engineering customized financial and technology solutions resulting in improving her client's processes, operations, and profitability.

Based on years of hands-on consulting and management roles, Carrie's capabilities combine a keen financial awareness with a deep understanding of the entire technology project lifecycle. She utilizes her technical expertise helping clients to analyze, design, develop, test, implement, and support their technology needs to meet their compliance obligations and achieve maximum business efficiencies.

Carrie has architected end-to-end e-commerce applications, as well as custom applications for inventory control, relationship management, and human resources. Whether she is performing an information security assessment or designing a plan to test controls in a compliance audit, clients value Carrie's ability to navigate information technology solutions skillfully on their behalf.
