

Mike Gray, CPA, MBA

Consultant

ABOUT MIKE

Mike is a licensed CPA with a breadth of experience in accounting, planning and analysis, systems development, and management. As a financial executive with two Fortune 500 companies and a large public university, he has demonstrated his significant abilities to reduce costs, increase efficiencies, and improve internal controls. His long-term knowledge of issues in accounts payable, accounts receivable and collections, inventory management and control, and supply chain management provide him with critical insights into business challenges.

For more than twenty-five years in his career, Mike has implemented multiple software and technology upgrades and changes, especially in the areas of logistics, supply chain management, and human resources. He has successfully managed the migration of accounting work to shared services, and his preparation and analysis of financial information have provided decision support for substantial loans and construction projects.

Clients value Mike's team-building skills and his ability to create processes that improve financial functions and business operations, thus driving improved profitability. His abundant experience in accounting, audit, and compliance give Mike the well-rounded perspective needed to identify problems and create solutions to resolve them.
