

Tiffany Ross

Consultant

ABOUT TIFFANY

Tiffany brings 25+ years of diverse financial, analytical and management experience to her Kaiser Consulting projects. She has served the accounting and auditing clients of well-respected regional and local public accounting firms and held positions as a private-industry controller with a construction company and a manufacturer, an assistant finance director for a governmental entity, and a finance director for a nonprofit organization. Additionally, she has provided services to a private college as an outsourced controller.

With in-depth knowledge of finance, accounting, and auditing, including grant and construction accounting, Tiffany is proficient in financial statement preparation, reporting and analysis, including the detailed requirements of preparing an Annual Comprehensive Financial Report for government entities. Her skill set includes budgeting, cost allocation planning, forecasting, inventory management, and project and grant tracking.

Tiffany is comfortable analyzing and presenting data for decision-making purposes, including sales and margins, cost reductions, and returns on investment. She is adept at contract compliance and negotiations, has a keen knowledge of employment law and human resources, and is experienced in enterprise resource planning (ERP), accounting, and fixed asset software, including Sage and QuickBooks.

A dynamic leader, Tiffany capably manages and works alongside teams of finance accounting professionals to help accomplish the organization's business objectives and financial goals. Her strong work ethic and enthusiastic approach to problem-solving make her an asset on all client engagements.
